Forecast for Wednesday 22 Nov 2023

Weather: Mainly dry with, especially in the east, some clear spells overnight. Then a rather cloudy day, the best of any brighter or sunnier spells expected across eastern hills, with a little light rain or drizzle at times across western hills. Remaining similar through the evening, a few clearer spells in the east and a little rain or drizzle in the west.

Chance of cloud-free hill tops above 800m: Around 25% in the west but nearer 60% in the east.

Low Cloud and visibility: Periods or persistent cloud above 600-750m at times in the west lowering to 450m at times in precipitation, but cloud, especially in east, more occasional at times. Away from cloud visibility good becoming several kilometres in rain and drizzle.

Meteorologist's View

Significant chill on the higher summits, especially through the morning

Forecast for Thursday 23 Nov 2023

Weather: Continuing mostly cloudy across western hills with a little rain or drizzle, but eastern hills largely dry with some clearer or brighter spells through much of the morning. The afternoon looks generally cloudy with outbreaks of rain becoming more persistent and perhaps, towards the end of the afternoon, briefly heavy. The rain clears south through the evening, and becoming largely dry with some clear spells developing. Perhaps the odd light wintry shower.

Maximum wind: Westerly 25-30mph, gusts increasing to around 50mph for a time in the afternoon, winds then turning more northwesterly in the evening and easing a little.

Chance of cloud-free hill tops above 800m: Around 25% in the west but nearer 60% in the east falling close to zero for a time through the afternoon, chances then improving again through the evening.

Low Cloud and visibility: Periods or persistent, but more occasional at times in the east through the morning, cloud above 600-750m lowering, especially in west, to 450m at times in precipitation, cloud then becoming more occasional above 750m during evening. Away from cloud visibility good or very good falling to several kilometres in rain and drizzle with brief reductions in evening showers.

Temperature: **Valleys:** Around plus 9 Celsius rising to plus 13 Celsius.
At 800m: Plus 6 Celsius falling to plus 3 Celsius through in the evening.
Freezing level: Above summits falling close to the highest summits in the evening.
